

GRTS Textbook Information

For most programs at Grand River Technical School, textbooks are provided within the class at no additional charge.

For those post-secondary programs in which textbooks are required at an additional cost, the textbooks are provided by the school, issued to students by the instructor at the beginning of the course, and charges are added to the students' tuition account.

For students who wish to purchase textbooks elsewhere, please contact the GRTS admissions office no less than four (4) weeks prior to the beginning date of school for textbook information and details.
