Pell Grant disbursements will be made directly to the student's tuition account (half in the 1st term & half in the 2nd term) so long as the student maintains satisfactory academic progress and 10% attendance. Any applicable refund owed to the student will be paid shortly following each disbursement.

Paramedic students' Pell Grant disbursements will be made half in 1st term upon start of class and again at checkpoint of 450 clock hours, typically in April of the first academic year.

Paramedic students who have submitted a new FAFSA for the final term of the program which runs July - December of the second academic year may also qualify for a third Pell disbursement in the Fall of the final term of the program.
